

Aquality Water Solutions awarded the Aqua Foundation's Excellence Award 2021

Hyderabad: September 27, 2021

Aquality Water Solutions Private Limited (AWSPL), a leading solution provider for Industrial and Commercial Water Treatment across industry verticals has been awarded the prestigious Aqua Foundation's Excellence Award 2021 in the category of "Excellence in Resource Management – Industrial" during the International Conference – XV World Aqua Congress 2021 held recently.

Aqua Foundation's Excellence Awards 2021 are the highest awards given by Aqua Foundation to its members, stakeholders and contributors in recognition of their outstanding achievements in the field of water, environment, energy, earth sciences, atmospheric sciences, planetary sciences, pollution control and sustainability solutions. Aqua Foundation honours individuals & organizations that have made a mark in their respective fields of expertise with significant contribution in the field of water, environment and humanity.

Aquality Water Solutions being a strong mission driven organization with the sole intention of providing clean drinking water facility to the people of India; has contributed immensely to the water treatment segment that has helped in improving quality of life of people with commitment, technological innovations and quality par excellence.

Mr. Mohammad Naser Azeez, Managing Director, Aquality Water Solutions said after receiving the award in a digital ceremony, *"Our sincere thanks to the Aqua Foundation for appreciating our work in providing exceptional water treatment solutions to the industries in India. This award is a testimony of over a decade of development with a conviction to deliver purest water solution to industries and people of the country. We firmly believe that innovation holds the key to growth and is basis of sustainability of any organisation. It's a proud moment for AWSPL that our work is being appreciated and it will certainly encourage us to continue with our innovations and contributions in the field of clean drinking water services."*
